

A **Unication Alpha Legend Plus Pager Holster** is included with each Alpha Legend Plus pager, but a replacement unit can be ordered if the original is ever lost or damaged. The holster is made of durable polycarbonate material with a built-in belt clip and has a semi-transparent smoke black color. Since it is semi-transparent, incoming messages can be read without having to remove the pager from the holster.

If your preference is to read the message with the pager out of the holster, its design allows for easy pager removal. The holster is used by all Unication alphanumeric pagers, so it is interchangeable with Alpha Elegant and Alpha Elite models.
