Stone Mountain Utah Chest
Push to Talk (PTT)
Microphone

The ***Stone Mountain Utah Chest Push to Talk (PTT) Microphone*** is ideal for users who require a large, easy to activate PTT interface for use in HazMat, Industrial, and Tactical applications. The rugged, high quality 6 pin Hirose accessory interface on the UTAH is designed to be used with most Hirose compatible headsets, throat mics, and other styles of TX / RX accessories.

Stone Mountain is committed to the design and development of innovative and rugged audio accessories for the Land Mobile Radio (LMR) and Public Safety markets. LMR customers are typically users in the public safety and heavy industrial sectors that require top quality and extremely rugged products that can stand up over the long haul. Stone Mountain also specializes in custom solutions for those clients who need unique and specialized communications solutions.
